

Called Out or Locked In?

A Study of the Word Church

The word “church” in our Bibles has alarming roots. What were the translators thinking?

There are two main approaches to producing an English version of the Bible from the original languages, which, in the case of the New Testament, was Greek. The most common approach is translation and the other is transliteration.

Transliteration is the practice of replacing the Greek letters of a word with English letters to form a new word with a distinctive meaning. This approach was used in select places with the word “baptize.” The original word βαπτίζω or “baptizo”, means “to dip or sink.” When Jesus *dipped* a morsel of bread and gave it to Judas in John 13:26, this is the word “baptize.” The scholars chose to transliterate this word, rather than translate, to avoid conflict with those branches of Christianity having unique approaches to baptism.

Translating, the practice of replacing Greek words with English words of similar meaning or intent is the most common practice. Our interest is in the English word for “church,” which replaces the Greek word *ekklesia*. In Acts 19:25-41, we have an example of the real meaning of *ekklesia*; the people of Ephesus gathered to deal with Paul’s alleged preaching against their god, Artemis of the Ephesians.

So then, some were shouting one thing and some another, for the assembly was in confusion and the majority did not know for what reason they had come together.

But if you want anything beyond this, it shall be settled in the lawful assembly.

After saying this he dismissed the assembly. Acts 19:32, 39, 41(NASB)

In each of these cases, *ekklesia* is correctly translated “assembly” since it means “citizens called to assemble.” In Acts 7:38 and Hebrews 2:12, *ekklesia* is translated as congregation, also a good interpretation. The rest of the one hundred fourteen times that *ekklesia* is used in the NT, it has been replaced with “church” or “churches”—replaced, because the word “church” is neither a translation nor a transliteration of the original word. Someone chose

to use “church” rather than the meaning of the Greek word or its letters.

Here begins the mystery.

Old English Bibles

John Wyclife, of Yorkshire, England, translated the first Bible into English in 1382, not from the original languages, but from the Latin. Therein, John translated the Latin word *ecclesiam* into *chirche* (an old English spelling):

And Y seie to thee, that thou art Petre, and on this stoon Y schal bilde my chirche, and the yatis of helle schulen not haue miyt ayens it. (Matthew 16:18 Wyclife, c1382)

The Latin word is similar to the Greek, but because he did not know Greek, he may have used what was commonly called a religious gathering in his day.

Other English translations that followed were:

- Tyndale’s Bible (1526) - used “congregation”:
And I saye also vnto the that thou arte Peter: and apon this rocke I wyll bylde my congregacion. And the gates of hell shall not prevayle ageynst it. (Matthew 16:18 Tyndale, c1526)
- Coverdale Bible (1535) - used ‘congregation’
- Matthew Bible (1537) - used ‘congregation’
- The Great Bible (1539) – used “congregation”
- Geneva Bible (1560) - used “church”
And I say also vnto thee, that thou art Peter, and vpon this rocke I will builde my Church: and ye gates of hell shall not ouercome it.” (Matthew 16:18 Geneva Bible, c1560)
- Bishop’s Bible (1568) - used “congregation”:
And I say also vnto thee, that thou art Peter, and vponn this rocke I wyll buylde my congregacion: And the gates of hell shall not preuayle agaynst it.” (Matthew 16:18 Bishop Bible, c1568)

The word “congregation,” in place of *ekklesia*, is a good translation since “congregation” means “to gather a flock” and refers to people, not places or institutions.

Going in Circles

Wyclife’s word *chirche*, or as we spell it today, “church”, has some interesting twists to its meaning. According to modern dictionaries, such as the American Heritage Dictionary of the English Language, the word “church” is derived from a Greek word meaning house of the Lord:

[Middle English *chirche*, from Old English *cirice*, ultimately from Medieval Greek *kurikon*, from Late Greek *kuriakon* (*doma*), the Lord’s (house), from Greek *kuriakos*, of the lord, from *kurios*, lord.¹

This in itself is a poor derivative since it refers to a place rather than to people, as Jesus intended. Many older sources on etymology doubt this Greek connection.

In Smith’s Bible Dictionary from 1884, page 452, we read:

the derivation of the word 'church' is uncertain. It is found in the Teutonic and Slavonic languages and answers to the derivatives of *ekklesia*, which are naturally found in the romance languages and by foreign importation elsewhere. The word is generally said to be derived from the Greek *kyriakos*, meaning the lord's house. But the derivation has been too hastily assumed. It is probably associated with the Scottish *kirk*, the Latin *circus/circulous*, the Greek *klukos*, because the congregations were gathered in circles.

Lidellan's Scott's Greek English Lexicon also tells us that the origin of our word “church” is uncertain. On defining the word *klukos*, from which church allegedly came, it says:

Of or for a lord or master (speaking of a secular lord). Assumed to be original of the Teutonic *kirk*, *kirche*, or *church*, but how this Greek name came to be adopted by the northern nations rather than the Roman name or Greek name *ekklesia* has not been satisfactorily explained.

Regarding the word church, Ebenezer Cobham Brewers Dictionary of Phrase and Fable of 1898 reads:

The etymology of this word is generally assumed to be from the Greek, *Kuriou oikos* (house of God); but this is most improbable, as the word existed in all the Celtic dialects long before the introduction of Greek. No doubt the word means "a circle." The places of worship among the German and Celtic nations were always circular. (Welsh, *cyrch*, French, *cirque*; *Scotch*, *kirk*; Greek, *kirk-os*, etc.) Compare Anglo-Saxon *circe*, a church, with *circol*, a circle.

If church is derived from the word “circle,” how then did the original Greek word *ekklesia* become “church” or “circle?”

Throughout England, pagan religious gatherings were always held in a circle. The Druids with their Stonehenge, the Celts, and Saxons also met in stone circles, to worship their gods. Many of these stone circles still exist throughout England and about twenty eight are found in the Wyclife’s Yorkshire area. Many of the first English Christian buildings for worship were located on these circle sites or were built using stones from these circles. Through this association, the people of Wyclife’s day continued to call these buildings a “kirk” (Scottish), a *cirice* (Old English), or *chirche* (Wyclife’s version), each variation meaning “circle” and describing a place—occult—and not the people.

Although we can see Wyclife’s rationale for using the word “church” or “circle” as common to his day, it was not suitable then or now, since it does not meet the meaning or intent of the original word. Because “church” or “circle” describes a place, the real meaning of *ekklesia* is lost. The better translation, “congregation”, was used by most other translations after Wyclife, except the Geneva Bible and the one authorized by King James—the later being the foundation of our modern versions.

The King James Version

The story gets interesting when King James I of England decided to authorize his own translation of the Bible in 1611. The other versions fell to his disfavour because their footnotes failed to honour the King. To correct this, he gathered fifty-four scholars and gave them fifteen edicts to follow as they translated and published the King James Version. The

first edict was that they use the Bishop's Bible (which used "congregation") with as few changes as possible. The third edict specified that, in select places, they were to use the word "church," and not "congregation," in place of *ekklesia*. His fourteenth edict stated that they could use the Tyndale, Matthew, Coverdale, the Great Bible (also called the Whitchurch, Cranmer, and Cromwell Bible), and the Geneva versions of the Bible wherever they were closer to their accessible manuscripts. The King's influence is also seen where the names of the apostle and brother for Jesus was translated as "James" rather than Jacob (*Iakobos*).

Why would the King be so adamant about using a word that he knew to mean circle rather than using the correct translation? What do we know about this King?

One detail of his life that history books do not often discuss occurred before he became King James I of England—while he was James VI, King of Scotland.

On the west wall of the lodgehall used by Lodge Scoon and Perth No. 3 in Perth, Scotland, can be found a mural depicting James VI kneeling at their altar at his initiation. The oldest existing record of the Lodge, called "The Mutual Agreement" of 24 December, 1658, records that James was "entered Freemason and Fellowcraft of the Lodge of Scoon" on 15 April, 1601.²

On April 15, 1601, James VI, who later became James I, entered the secretive society of the Freemasons. In fact, Masons credit him as being the originator of the worldwide system of lodges within Freemasonry.³ His version of the Bible became, and still is, their favoured version.

One of the most important symbols in Freemasonry is a circle with a dot in the center—part of their motif—the shape that is drawn by the compass.

Symbols of Note

Throughout Europe and England, the circle was a significant occult symbol and remains so today. It connotes inclusion or influence, as does that of being

surrounded. Many good symbols such as the five-pointed star and the six-pointed Star of David become the occult pentagram, pentacles, and the hexagram when encircled, and each is used with prominence in Freemasonry and Witchcraft. Does a circle surrounding these and other symbols place them under the influence of occult powers?

Adherents of the occult believe symbols have power and influence, and especially so when those carrying or connected to the symbol are not aware of it. Would the expression "Ignorance of the law is no excuse" apply to spiritual concerns too? Does ignorance of the law of gravity excuse us of its influence?

Recently, I had occasion to pray with an individual whom Jesus was calling out of a high position within the occult. During our prayers, he asked if we could use a word other than "church" as we prayed. That startled me and when I asked, his reason was that what we refer to as occult *covens* are referred to as churches by those within occult circles. He wanted to be clear that his prayers referred to the Body of Christ and not to occult churches/covens.

Why do occult organizations such as the Church of Illumination, Church of Scientology, Church of Wicca, Church of Satan, and others embrace the word "church" in their identity? Do they better understand its meaning and significance? Could it be that we are naïve?

Truth Sets Free

Since the word "church" has no foundation in truth, we would be wise to move away from its use in our Bibles, writings, and speech, replacing it with terms such as "those people I call", "assembly", "congregation", or similarly suitable translations, more directly referring to God's people rather than to a place. Even our meeting places would do well with a change away from meeting in "the circle" to our "gathering place", "place of assembly", or "worship center."

Compare Jesus' words in the verses that follow, and see the richness of the real meaning.

I will build My church; and the gates of Hades will not overpower it. (Matt 16:18 NASB)

In Jesus' day, walls encircled cities and access was by way of the gates. Was Jesus thinking of Samson? In their plan to capture and then take

Samson's life the Philistines locked him in the city of Gaza but he tore the gates from its hinges and carrying them to the top of a nearby hill.⁴ When Jesus calls people of his assembly into his kingdom, the confines of the realm of the evil spirits (Hades) that encircle us will not be able to hold us when we determine to break free of its bondage.

I will edify **the people I call**; and the gates of the realm of the evil spirits will not be strong enough to keep them confined. (Matt 16:18 emphasis is mine)

This has a richer, more personal meaning than does the use and understanding of the word "church" today. Are we like Samson when Jesus edifies and empowers us?

Building this "church" or rather "the people called to assemble" is Jesus' work; ours is to promote the kingdom, God's kingdom, not our little local versions.

Break Free

Jesus called out or assembled twelve ordinary people and spent three years teaching them about the kingdom of God. Then they turned the known world upside down in 300 years—teaching and being witnesses of Jesus, with signs and wonders.

Looking back to the Pentecostal, Charismatic, Vineyard, Salvation Army, Methodist, and other movements, why did their initial revival, renewal, and uniqueness dissolve into the same basic powerless style and function as that of the mainline churches? By ineffective style and function, I refer to the process wherein people, participating for even thirty or forty years, are ill-equipped to share the joy and privileges of the gospel message with their neighbors, or to exhibit the qualities of Jesus' life.

When we unknowingly identify ourselves with the occult symbol of the circle, through our association with the word "church," do we also place ourselves under the rule and authority of occult principalities and powers as mentioned in Ephesians 6?

Are these principalities and powers responsible to see that we remain ineffective by pressing or subjugating us into a common and powerless style and function?

Are the words we use important? In the following verse, Jesus suggests they are important.

But I tell you that every careless word that people speak, they shall give an accounting for it in the day of judgment. For by your words you will be justified, and by your words you will be condemned. (Matt 12:36-37 NASB)

George Barna writes, "The church seems afraid to invest in new modes of being the church, breaking free from antiquated models and irrelevant traditions toward living the gospel in a twenty-first-century context."⁵

Is it fear, as he suggests, or is it a bondage to the confines of the circle? I will leave you to answer that question.

Conclusions

The word "church" has no foundation in scripture, being a transferred word and not an interpretation or transliteration. We should consider that there might be negative spiritual ramifications resulting from our identification with this word.

Aside from that, the Gospel is not places, buildings, or circles; rather, it is about unique, individual, and precious people. The Samaritan woman at the well changed the course of her discussion with Jesus to places of worship. Jesus turned that discussion toward people who would worship in spirit and in truth.⁶ Jesus pointed out that people are important, not places, when he spoke to her.

Woman, believe Me, an hour is coming when neither in this mountain nor in Jerusalem will you worship the Father. You worship what you do not know; we worship what we know, for salvation is from the Jews. But an hour is coming, and now is, when the true worshipers will worship the Father in spirit and truth; for such people the Father seeks to be His worshipers. God is spirit, and those who worship Him must worship in spirit and truth. (John 4:21-24)

Jesus demonstrated an interest in the people, his sheep. He led them, taught them, healed them, and then sent them out to do the same. He was not interested in larger stalls or larger flocks but that they would be equipped to go out to do as he did, and so to every nation.

Ekklesia is about calling out and equipping people.

Since this word “church” is so very entrenched in Christianity, the simple solution is to redeem and set this word apart for our use as Israel did of vessels for the temple. Pray this with me:

Our Father, the Most High God, redeem the word “church” from every occult connection and association with the word and symbol called “circle,” Remove everything ungodly and everything having unrighteous intent from past, present, and future use and association with the word “church” as it is used as a replacement for the Greek word *ekklesia*, and its meaning—those people called by Jesus Christ to assemble. We command a blessing on

this word “church” as it is used to describe the various local congregations of people redeemed by the blood sacrifice of the Lamb of God, Jesus of Nazaeth, in whose name we assemble. We also ask that the use of the word “church” by those in the occult would work to draw them to Jesus, because we bless this word for the exclusive use as describing the assembly of Christians. In all this, may you be glorified. Amen
